“ I first met Donna about 25 years ago when I was still quite early in my career at Lockheed Martin. We used to play cards during our lunch break and during that time I was expecting my first child. She and I would often discuss how to balance work and parenting as she too had a young family. I fondly remember her sage advice and her infectious, hearty laugh. Donna was very talented at her job and quickly moved up the management ranks, but whenever our paths crossed she always made the time to catch up and see how I was progressing with my career and family, as well as sharing the things she was experiencing in her life and current role. My deepest sympathies to her family and friends.

“ We first met Donna when Roy made the great decision to make her part of our family. We loved her dearly and enjoyed our trips to Canada and the Lake Norman area; our annual New Years visits to Florida and Thanksgivings in Northern New York. Our favorite pastimes were family,cards and some golf. Her laughter was infectious and wonderful - she will be missed by all - thank you Donna for being a great part of our family - may you rest in peace. Love and hugs to Roy, Jenn and Robbie.
